The attendance was larger than the roost sanguine of our agricultural friends had anticipated. In fact, it was a very successful demonstration of the kind, and compared favorably with the Fair of our Kentucky neighbors at Owensboro, and of our Warrick friends at Boonville .--The crowd in attendance on Friday was esti- Baily mated at from 3,000 to 4,000 persons. The show of blooded stock surpassed that of any previous year, and Artizans' Hall was better filled with the skill of our Mechanics than usual. Floral Hall was well represented by our fair lady friends, and the skill of their pretty hands and the ingenuity of their well cultivated minds, attracted admiration from all. THE HAIR - People have for conturies been afflicted with baid heads, and the only remety heretofore known has been those abominable wigs. By a recent discovery of Professor Wood, these articles are being fast dispensed with; but a great many persons still patronize them because they have been so often imposed upon by Hair Tonics of different kimls. To all such persons we car nestly make the request that they will try once again, for in Wood's Restorative there is no such thing as fail. We know of a lady who was buld, who used the article a short time, and her head is now covered completely with the tiniest and most beautiful curls imaginable. We know of numerous cases where hair was rapidly falling out, which it restored in greater perfection than it ever had been

It is also without doubt one of the best articles for keeping the hair in good condition, making it soft and glossy, removing dandruff, and has proved itself the greatest enemy to all the ills that hair is

medicine composed of simple mountain herbs and roots, should so certainly search out and cure discase. How surprising that the Indians should know and preserve so long and well a secret that has escaped the search of the greatest physicians the world has ever seen. True, the aucient inhabitants of Mexico were a strange race, found by the Spaniards living in large cities, and, allowing for their strange customs and religion, as well civilized as their conquerors. In the words of a writer of some celebrity, "they have perished from the earth, their cities are gigantic piles of rains, their Kings and Princes so mighty in their lives, are forgotten; their ruins and their medicines alone are left." The united testimony of all intelligent persons is, that JUDSON'S MOUNTAIN HERB PILLS are the most successful medicine in the world in curing disease.
